

Thermax® Temperature Indicators

Key Specifications

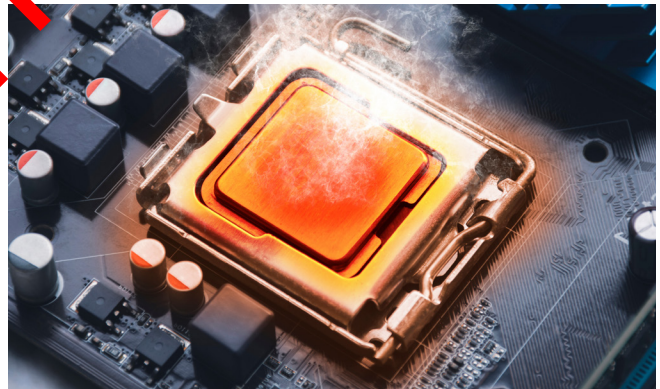

Temperature Range	29- 290°C
Accuracy	±1°C / ±2°F (29 – 99°C range) ±1.5°C / ±3°F (100-154°C range) ± 1% +1°C / ± 1% ±2°F (160-290°C range)
Visual Indication	Clear to Black
Mounting	Self Adhesive
Storage Requirements	Store in a cool dry space, below lowest temperature level

Application Examples:

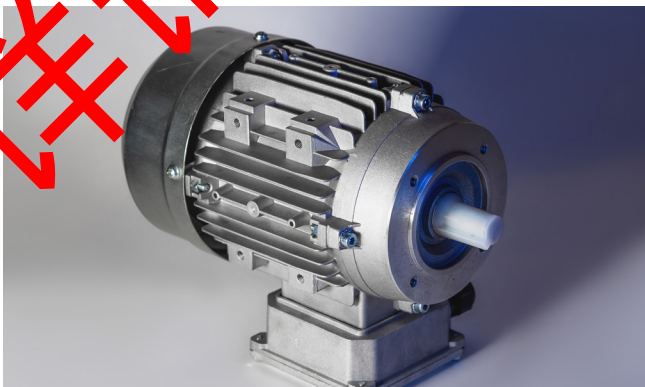

Proof of Drying, Curing & Bonding – confirmation that appropriate temperatures have been reached

Warranty Claims – indication of equipment overheating

Preventative Maintenance – monitoring of machine components

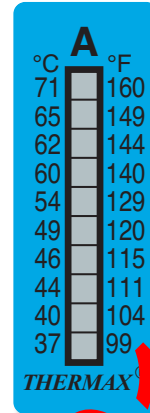

Process Validation – verification that in-process temperatures have been achieved

4 LEVEL MICO ENCAPSULATED SINGLE TEMP

Size: 0.47" x 0.51" (12 x 13 mm)

Scale: °F and °C

Units/Packs: 50

Type: Single temperature indicator shows when maximum temperature has been achieved. Self-adhesive.
